

Wissahickon School District Advertising Opportunities

Would you like to be a part of an exciting initiative to enhance the athletic facilities and programs of the Wissahickon School District for our students and community?

Consider one of our Wissahickon advertising opportunities!

Businesses, organizations and individuals may place an ad on a banner, sign, website or TV monitors in one of Wissahickon High School's many high profile areas used by thousands of students, community groups and spectators each year including the WHS Stadium, Round Gym, soccer and baseball fields and the brand new natatorium! Our facilities are used...

...by all Wissahickon High School students (1,400+) as part of the physical education/health curriculum

...by the 30+ WHS boys and girls sports teams and visiting teams

...by community sports clubs and organizations

...by school and community clubs and organizations for special activities and events

All Advertising Supports Students & the Community

While the district budgets each year for facilities improvements in the six school buildings and across our campuses, many important athletic facility upgrades exceed the district's budget. Every dollar raised through community support counts - reducing the burden on our taxpayers while ensuring excellent athletic programs and facilities for all students & community members.
