

Concussion Education

Required training for every parent and student athlete in FCPS

All student athletes and a parent must complete a concussion education program every school year according to Virginia law. Videos are provided at www.fcps.edu/sports

The program will take approximately 15-20 minutes to complete. Upon successful completion, the school will be able to verify that you have completed the program. This process occurs automatically and you will not be required to provide a certificate of completion.

Students and parents must complete separate programs. Parents need only complete the program once for all their children participating in FCPS athletics if they register each child's FCPS ID number prior to viewing the slideshow.
