

WV Intramural Volleyball

***All activities related to the Intramural Program must take place on school grounds. Any activities not taking place on school grounds are not approved by the school.

Teams:

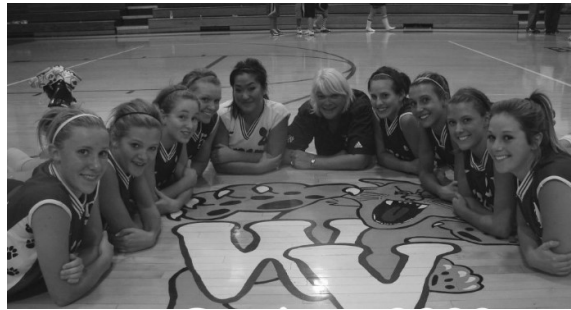

We try our best to create equal teams .

All teams will have a mix of age and ability.

We will try to keep immediate family members on the same team. Please do not make requests for coaches or other players. Once the teams are determined, there will not be any refunds.

Training:

The intramural program not only teaches skills but creates drills to keep the kids learning, sweating, and moving.

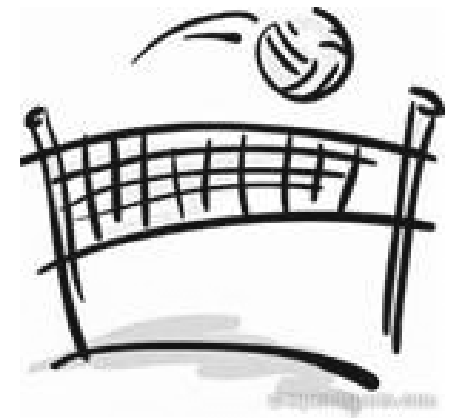

"The Walton-Verona Intramural Program is purely instructional. Teaching the game of volleyball is only one part of what we want players to learn from this experience. We want children to learn about manners, sportsmanship, and being good role models. Parents need to realize that winning games is NOT the main focus of this program."
