An impressive 94 percent of EDS middle school students participated in sports this past year. By participating in athletics at EDS, students receive instruction from top-notch coaches while they learn to respect the game, their teammates, officials and opponents. They develop friendships and a sense of belonging as well as leadership and physical skills. As parents, you will become well acquainted with the courts, fields, tracks, pools, and courses that play host to athletics and feel a part of Panther Nation!

We invite you to consider becoming a Booster Club member. Membership can pay for itself with the attendance of just a few home games. Why hassle with buying tickets at each game when you can simply give your name and gain admission?
