CHARACTERISTICS OF A GOOD STUDENT MANAGER

Franklin Academy student managers are an important part of their team's success. The following characteristics are expected of each student manager:

SELF-MOTIVATION

Each of us should welcome the challenges each day presents and go to work immediately upon the task at hand. A student manager needs to be ready at all times. Since practice is a daily routine of continuous activities, always be prepared.

LEADERSHIP

Lead by example. This means not only leading by words, but also leading by your work ethic. You should become a stickler for detail. Meaning, someone who is always aware of everything that is going on, and makes sure the work is getting done accurately and according to set standards. By doing so you will become highly respected by those you work with and work around, and in turn gain knowledge on what needs to be done without having to be asked to do it. Those people who work for you will then be forced to raise their standards and prevent mistakes from happening. When you get credit for a job well done, share that credit with all who deserve it. Doing this will elevate your stature in the eyes of your supervisors and co-workers. Taking credit for work you did not do will foster feelings of resentment and hostility.

LOYALTY

Take care of those who take care of you. Be loyal to your co-workers, your coaching staff, your student-athletes and your university. Being a student manager is a privilege and should always be treated that way. With such, team information and knowledge are to stay within the team.

RELIABILITY

A student manager is part of the team. Your attendance is expected and required for a successful endeavor. Be on time, be prepared, and be ready to work!

HIGH MORAL STANDARDS

The day you started working here, you became a highly visible member of the Purdue University Athletics family. Never do anything that will tarnish the fine reputation that so many people have worked so hard to attain. You will treat all people the way you would like to be treated. Courtesy and manners are to be used at all times. Everything you do reflects upon not only members of your sport but also yourself, your parents, and Purdue University!

PRIDE

Pride is an important factor in determining success. Take pride in every aspect of your life, not just being a student-manager. All of you have unique personality traits; take them to the next level and use them to have a successful college experience and prepare for your future!
