## Proposed Timeline

- Breaking Ground August 2025
- Proposed Completion August 2026

## Support Goal:

\$3,000,000.00

## About the Project:

The Northwood High School field house was constructed in 1978. It was built by the school's masonry class with help from Northwood coaches and staff. Over the years, the field house has been home to conference champions in football and lacrosse, along with thousands of hours of coaches meetings.

The current field house meets the needs of our football team in the fall and baseball and boys lacrosse teams in the spring. But without enough space, our remaining teams are storing their gear and changing in bathrooms and PE changing rooms.

Hundreds of Charger alumni have used the existing field house which has surpassed its functional lifespan.

Now is the time to come together to build a new field house that will meet the demands of practices and games for our student athletes and coaches.

The new 10,000 square foot facility will have locker rooms to house up to eight teams. A new athletic training room will allow our sports medicine team to treat our athletes on a daily basis. Our

teams can utilize the meeting room to prepare for their next games. And a state of the art weight room will allow our athletes to reach their full potential.

We can't build this facility ourselves. We need community and alumni support now more than ever. Please consider donating to this worthy cause. Anything will help, and no amount is too great or too small.

With your help we can provide a state of the art facility for future generations of Charger student athletes.

Thank you for your support.
