District Transportation and bus rosters

Athletes must ride to an event on the District provided transportation unless prior approval is given by the building principal (a note must be written requesting permission prior to the event).

After an event, athletes may ride home with parent/guardian only after the parent has submitted a note to the coach or has signed the bus roster provided by the coach. Students may only ride home with someone other than a parent/guardian if a note signed by the parent/guardian is presented to the coach prior to departure from the home school and at no time will a student be permitted to ride with a student driver.
