**Tammy McHale**  
Principal

**Leteris Banos**  
Athletic Director

Dear Student Athlete,

All student athletes who compete in sports are required to take the ImpACT Concussion Baseline Test prior to participation. The test is only required **every other year**. If an athlete sustained a concussion in their last athletic season, they are required to take a new baseline the following year. If you are unsure if you need to take the baseline test, email Miss. Ricker. This test is available online and can be taken from home. Please follow the directions below to complete the test. If you do not have access to the internet at home, contact Miss. Ricker at the email below to arrange a testing time during preseason.

**Note:** Due to the nature of the test, **it is required to use an external mouse and not a trackpad for test accuracy.**

**Requirement:** For the test to operate, please turn off pop-up blockers. Internet access is also required. Also please make sure you use a browser other than chrome, the test tends not to work with chrome.

**Directions:** *To ensure the validity of the test, please follow these instructions. It is very important that you are fully able to concentrate during the entire test. Poor performance will result in an invalid test and will require a re-take! Test takes approximately 30 minutes to complete.*

- No headphones or cell phone during the test. Turn off TV, radio or background noises.
- Go to the following webpage: <https://www.impacttestonline.com/testing>
- Enter the following Customer ID Code: **ae604155b2**
  - **Please be careful when entering the customer ID code. If you input it incorrectly and take the test under another school's code you will need to retake the test.**
- Please use your legal first name that will be on your physical. No nicknames or middle names.
- The test begins with a demographic section which includes questions about any past concussions you may have suffered. **Do not skip any section section!!!**
- Following the demographic section, there are 6 "modules" that make up the actual test. **Make sure you read the directions for each module before beginning them.** Do not ask anyone to help you with the modules and do not write anything down during the test to aid memory. *Cheating will make your baseline scores impossible to reach should you sustain a concussion and will keep you from getting cleared.*

**Once you have completed the test and your physical is turned in we will look up your test date.** You DO NOT need to print or email the confirmation page. Any athlete who does not complete the test before the start of preseason will NOT be eligible to practice. If you play a winter/spring sport you will not need to re-take the baseline this current school year.

Thank you for your cooperation!

Sincerely,  
Ms. Jamie Ricker, ATC
