

Landon Wilkes
Athletic Director
Maple Valley Jr/Sr High School

Lions Families,

The athletic department is excited to announce that we will be continuing our registration process for sports to an online platform. This will allow you to complete all athletic documents needed for the 2022-2023 school year online. Signature pages, physicals, emergency contact, and other forms will all be available through this process. We have picked a system that is already used by our department for scheduling and our athletic website. The website is HIPAA, COPPA and FERPA compliant.

- Athletes must have a current physical on file (one completed on or after April 15, 2022)

When you and your child are creating an account, please make sure all information is as accurate as possible. When creating accounts the student athlete should create their account first then parent/guardian second. There is a messaging service integrated with the system that will allow the athletic department and coaches to send information to parents and students. The information will be sent to you via text message or email depending on your preference.

Practices for all High School fall sports will start on August 8, 2022. Physicals must be uploaded into PlanetHS and attestments signed in order for athletes to participate in practice. Coaches will have the ability to see which students have completed all required paperwork.

Included with this letter is information and a help guide to start this process. Please read these first and reference them as you walk through the process. Please contact the athletic department with any questions: Sharon Harris at 517-852-9275 ext. 2005 or sharris@mvs.k12.mi.us or Landon Wilkes at lwilkes@mvs.k12.mi.us.
