

# **Republic Athletics and Activities**

## **Fall Event Attendance Policies**

### **All Middle School and High School Sports and Activities- Indoors and Outdoors**

- Masks/face coverings are REQUIRED for those in 4th grade and older and HIGHLY recommended for those younger when social distancing is not possible. Specifically, please make sure you wear your "mask on the move" as you find your seat at events, visit the concession stand, etc.
- Spectators in the bleachers should socially distance whenever possible. Families may sit together but should maintain proper distancing and separation from other families.
- Republic School District will utilize the facility capacity guidelines set by the Springfield-Greene County Health Department to determine the number of spectators allowed to attend athletic/activity events.
- Through October 2020 this will mean that events held in Republic will not exceed 50% capacity. Based on historical attendance data, we do not feel maxing our capacity will be an issue. However, capacity will be filled on a first come first serve basis.
- Gatherings on the field or court will NOT be permitted prior to or after contests.
- No re-entry will be permitted.
