10. At a Saturday tournament, you've been assigned to take stats for four varsity wrestlers, using MatBoss software on a tablet. You are also expected to maintain paper stats on a clipboard for each match and must Tweet the results of the match. Just as Wrestler 1's match is about to begin, you realize that Wrestler 2's match has already started on a mat across the gym. You've missed the first 40 seconds of his match.

The appropriate steps you should take are listed below... please put them in order of how you would prioritize the situation by writing the number to the left of the step.

Tweet the results of both matches

Ask a nearby statistician (or text the group) to video Wrestler 2 if a tablet is available, and/or take paper stats if there is NOT a tablet available

Edit the video of Wrestler 1's match to contain his stats

Complete the paper stats for Wrestler 1

Verify that Wrestler 2's paper stats match what the table has or what is posted on TrackWrestling

Set up the tripod and begin the video for Wrestler 1's match

11. You're scoring a match at a tournament, when you realize that the table has the wrong score on the scoreboard. Briefly describe what action you would take.
