2014 BASEBALL CATALOG

“From the garage where they began until becoming the **Number One Bat** in baseball, Marucci’s obsession with quality has never changed.”

- Albert Pujols

**Marucci Partner
Chairman of Player Advisory Board**

Based in Baton Rouge, Louisiana, Marucci was founded by two former Big Leaguers and their athletic trainer — Kurt Ainsworth, Joe Lawrence, and Jack Marucci – and began handcrafting bats for some of the best players in the game from their garage. Producing bats was originally Jack Marucci’s hobby; when his son Gino (then eight years old) wanted a wooden bat instead of aluminum, Marucci decided to produce it himself! Ainsworth and Lawrence took notice and turned his hobby into a custom bat-making business for the few Big Leaguers who were fortunate enough to get in on the limited supply in the early days. Fast forward 10 years, and that dedication to quality and understanding of players’ needs has turned the company into an All-American success story with Marucci being the top bat in baseball and over 350 Big Leaguers swinging its wood.

Today, Marucci makes wood and aluminum bats, batting gloves, protective gear, and other baseball accessories. In stark contrast to other companies who pay players, Marucci is fortunate enough to have star players like Albert Pujols, Chase Utley, David Ortiz, Jose Bautista, and Andrew McCutchen invest their hard-earned money and time to advise Marucci on design and test its products.

FIELDING GLOVES

At Marucci, we make our products the same way you play baseball: Hard work, determination, and attention to detail. This product is handcrafted. We are committed to never releasing a product before it meets the standard set forth by our wood bat. Our process is proven. The only way to achieve perfection is to accept nothing else.

We first gave gloves to Big Leaguers in our inner circle to break in and critique - knowing the extreme situations they would be put in. Players like Chase Utley allowed us to comprehend what a player needs and looks for in an ideal fielding glove. Understanding this professional standard of perfection has allowed us to handcraft a performance product that will last and consistently maximize your game.
