

# Better Recruiting. Better Future.

An expert from **NCSA Next College Student Athlete**, the world's largest and most successful recruiting network, will be on hand to discuss today's ultra-competitive college recruiting process. NCSA excels at removing the many unknowns and frustrations of the recruiting process for parents and student-athletes and shows them how to create a realistic recruiting game plan. Every athlete in attendance will receive a free NCSA recruiting profile providing them with nationwide exposure to college coaches in their sport.

My passion is working with high school athletes and their families and teaching them about the college recruiting process. Through this experience, I found that most parents lacked knowledge of the NCAA rules and requirements and how college coaches identify and evaluate prospective recruits. I am a recruiting expert in 29 NCAA/NAIA sanctioned sports and have helped thousands of athletes move on to participate in college sports while earning their degree.
