

COVID-19 PHASE 3 – Guidelines

Rationale

Phase 3 will be the final phase of the summer recess period, which will conclude on August 28th. Once the previous phase (Phase 2) has been successfully completed and provided there has not been a significant change in health conditions indicating otherwise, progression to Phase 3 is medically appropriate.

Phase 3 allows for modified non-contact practices with increased team activities as it pertains to skills and drills development. In this Phase, student-athletes may engage in more rigorous and intense workouts, while also maintaining social distancing to the fullest extent possible. During this phase, schools may continue to use indoor facilities if approved by the school district.

Phase 3 will allow a maximum of fifty (50) student-athletes to participate in workouts together and will continue to permit the sharing of sports equipment between and among student-athletes within the new pod. Larger groups of student-athletes are permitted during this phase because student-athletes have worked out together in successive weeks without a confirmed case of COVID-19. As in Phase 2, it is imperative that all sports equipment be cleaned and disinfected in accordance with applicable guidelines.
